**AVI-SPL Attains TANDBERG Telepresence T3
Install and Maintenance Certification**

TAMPA, Fla, August 13, 2009 – Leading audio and video communications solution provider AVI-SPL announced today that they are now a TANDBERG Telepresence T3 Install and Maintenance Certified Partner in the Americas. With this designation, AVI-SPL can now offer installation and maintenance support on the award-winning TANDBERG Telepresence T3 system. By achieving this certification, AVI-SPL becomes one of the select partners authorized to sell and install the TANDBERG total solution.

TANDBERG is one of the leading global manufacturers of high-definition video conferencing and telepresence equipment. Its immersive telepresence solution, TANDBERG Telepresence T3, provides the most advanced visual collaboration experience available through the integration of thousands of details working in sync to deliver an exclusive, easy-to-use, natural forum that allows conference participants to meet as if they are in the same room. The T3's consistent room design and lighting create an environment where participants appear almost 3-D.

“Our goal is to be the definitive leader in the video services industry,” said Mike Brandofino, EVP of Video and Unified Communications, AVI-SPL. “With each new certification, we continue to differentiate ourselves from the smaller players in the space who do not have the depth and the financial resources to invest in staying on top of the latest technologies.”

“It is important for TANDBERG to have strong partners to support the ever-growing demand for the full range of TANDBERG products, especially the TANDBERG Telepresence T3, which requires a combination of video, network and room integration expertise,” said Rick Snyder, President, TANDBERG Americas. “AVI-SPL is one of only a few companies capable of providing a single-source solution for our customers and we are pleased to see them continuing to invest in supporting the TANDBERG line of products.”

AVI-SPL is the leading source for end-to-end video communications solutions from desktop deployments to sophisticated board rooms. A full suite of video and audio managed services is available through ConferencePoint™ including services to support telepresence and HD video deployments. Some of the key features available through ConferencePoint™ are: *24/7 Helpdesk Support, Calendar and Room Resource Management, Integrated Call Scheduling and*
