AVI-SPL to Exhibit at Florida Education Technology Conference in Orlando

AVI-SPL to Showcase SMART Technologies, Varitronics Products

TAMPA, Fla. Jan. 5, 2010 – AVI-SPL, the largest global integrator of audio visual and video conferencing systems and services today announced it will showcase the latest products from SMART Technologies and Varitronics at the 2010 Florida Education Technology Conference (FETC), which will be held January 12-15 at the Orange County Convention Center in Orlando, Fla.

In Booth 201, AVI-SPL will feature a SMART Board and SMART Table, along with various projectors, document cameras, Balt chairs and AVI-SPL's latest product, the Teacher's Pet, a mobile cart that houses a customizable suite of classroom tools and technology. A series of educational presentations about lesson planning with SMART products will be held at the booth. Several of the presentations will feature Florida educators offering tips based on their first-hand experiences with the SMART equipment. Presentation attendees will be entered to win a variety of prizes including a SMART Board with stand, a SMART Document Camera, and a SMART Response system.

In Booth 308, AVI-SPL will spotlight the VariQuest™ line of products from Varitronics. This innovative technology offers quality solutions for educators, expanding their ability to create a variety of educational materials with their schools' insignia. With the use of VariQuest™ products, teachers can create cutouts for bulletin boards, laminate special projects, and print customized awards, posters and banners.

"FETC is definitely the best conference for educators in Florida, hosting professional development seminars and the latest classroom technology," said Bob Mallory, vice president of education market development at AVI-SPL. "As an exhibitor, I enjoy meeting with educators and helping to find solutions for the unique needs of their classrooms."

-MORE-

FETC is one of the largest conferences in the United States devoted to educational technology. The conference program is designed so educators and administrators have an opportunity to learn how to integrate different technologies across the curriculum – from kindergarten to college – while being exposed to the latest hardware, software and successful strategies on student technology use. FETC is designed for teachers, principals and deans, district administrators, curriculum designers, media specialists, technology directors and various other educators.

About AVI-SPL

Headquartered in Tampa, Fla., AVI-SPL is the result of a merger between Audio Visual Innovations (AVI) and Signal Perfection, Ltd. (SPL). In aggregate the company has more than 40 years of experience providing innovative audio and video communications solutions with a strong tradition of high quality and exceptional customer service.
